Prospectus Supplement dated February 8, 2008

The purpose of this mailing is to provide you with changes to the current Prospectus for Class A, B, C, R, Investor Class and Institutional Class shares, as applicable, of each of the Funds listed below:

AIM Asia Pacific Growth Fund
AIM European Growth Fund

AIM Global Aggressive Growth Fund
AIM Global Growth Fund

AIM International Core Equity Fund
AIM International Growth Fund

At a meeting held on December 13, 2007, the Board of Trustees of AIM International Mutual Funds (the "Trust") approved for one or more of the series portfolios listed above (each, a "Fund," and collectively, the "Funds") each of the following items, each of which also requires approval by Fund shareholders:

- For each Fund, a new sub-advisory agreement between A I M Advisors, Inc. ("AIM") and each of AIM Funds Management Inc., INVESCO Asset Management Deutschland, GmbH, INVESCO Asset Management Ltd., Invesco Asset Management (Japan) Limited, Invesco Australia Limited, Invesco Global Asset Management (N.A.), Inc., Invesco Hong Kong Limited, Invesco Institutional (N.A.), Inc. and Invesco Senior Secured Management, Inc. AIM and the Trust's Board of Trustees (the "Board") believe that the proposed sub-advisory agreement would benefit the Funds and their shareholders by permitting AIM to utilize the additional resources and talent of these nine affiliated sub-advisers in managing the Funds. Because AIM would pay all of the sub-advisory fees of the sub-advisers, the proposed sub-advisory agreement would not affect the fees the Funds pay to AIM pursuant to their advisory agreements.
- For AIM International Core Equity Fund, changing certain of its fundamental investment restrictions. The proposed revisions to the fundamental investment restrictions are described in a supplement to the Fund's Statements of Additional Information. The proposed revisions would conform the restrictions for the Fund to a set of uniform model restrictions under which most of the mutual funds advised by AIM operate and would provide the Funds with as much investment flexibility as is possible under the Investment Company Act of 1940.
- For AIM International Core Equity Fund, making its investment objective non-fundamental. Making the Fund's investment objectives non-fundamental would give the Board additional flexibility to make appropriate changes to the investment objectives to respond to new developments and changing trends in the market place without the commensurate expense of seeking a shareholder vote. If made non-fundamental, the Board would be able to modify the Fund's investment objectives when deemed appropriate.
- For each Fund, an amendment to the Trust's Agreement and Declaration of Trust that would permit the Board to terminate the Trust, a Fund or a share class without a shareholder vote. The proposed amendment would give the Board the flexibility to terminate the Trust, a Fund or a share class of a Fund if circumstances warrant without the commensurate expense of seeking a shareholder vote. The Board would terminate the Trust, a Fund or a share class only if they found that doing so was in the best interests of the shareholders of the Trust, Fund or share class, as applicable.

The Board of Trustees has called a meeting of each Fund's shareholders to be held on or about February 29, 2008, to vote on these and other proposals. Only shareholders of record as of November 30, 2007, will be entitled to vote at the meeting. Proposals that are approved by shareholders are expected to become effective on or about May 1, 2008.

Investment Objective and Strategies

The fund's investment objective is long-term growth of capital. The investment objective of the fund may be changed by the Board of Trustees without shareholder approval.

The fund seeks to meet its objective by investing in a diversified portfolio of international equity securities whose issuers are considered by the fund's portfolio managers to have strong earnings growth. The fund focuses its investments in marketable equity securities of foreign companies that are listed on a recognized foreign or U.S. securities exchange or traded in a foreign or U.S. over-the-counter market. The fund will normally invest in the securities of companies located in at least four countries outside of the U.S., emphasizing investment in companies in the developed countries of Western Europe and the Pacific Basin.

At the present time, the fund's portfolio managers intend to invest no more than 20% of the fund's total assets in companies located in developing countries, i.e., those that are identified as in the initial stages of their industrial cycles.

The fund's investments in the types of securities described in the prospectus vary from time to time, and at any time, the fund may not be invested in all types of securities described in this prospectus. Any percentage limitations with respect to assets of the fund are applied at the time of purchase.

The portfolio managers employ a disciplined investment strategy that emphasizes fundamental research, supported by quantitative analysis and portfolio construction techniques. The strategy primarily focuses on identifying quality companies that have experienced, or exhibit the potential for, accelerating or above average earnings growth but whose prices do not fully reflect these attributes. Investments for the portfolio are selected "bottom-up" on a stock-by-stock basis. The focus is on the strengths of individual companies, rather than sector or country trends. The fund's portfolio managers may consider selling a security for several reasons, including when (1) its fundamentals deteriorate or it posts disappointing earnings, (2) its stock price appears to be overvalued, or (3) a more attractive opportunity is identified.

The fund typically maintains a portion of its assets in cash, which is generally invested in money market funds advised by the fund's advisor. The fund holds cash to handle its daily cash needs, which include payment of fund expenses, redemption requests and securities transactions. The amount of cash held by the fund may increase if the fund takes a temporary defensive position. The fund may take a temporary defensive position when it receives unusually large redemption requests, or if there are inadequate investment opportunities due to adverse market, economic, political or other conditions. A larger amount of cash could negatively affect the fund's investment results in a period of rising market prices; conversely it could reduce the magnitude of a fund's loss in the event of falling market prices and provide liquidity to make additional investments or to meet redemptions. As a result, the fund may not achieve its investment objective.

Principal Risks of Investing in the Fund

There is a risk that you could lose all or a portion of your investment in the fund. The value of your investment in the fund will go up and down with the prices of the securities in which the fund invests. The prices of equity securities change in response to many factors including the historical and prospective earnings of the issuer, the value of its assets, general economic conditions, interest rates, investor perceptions and market liquidity.

The prices of foreign securities may be further affected by other factors, including:

- **Currency exchange rates**—The dollar value of the fund's foreign investments will be affected by changes in the exchange rates between the dollar and the currencies in which those investments are traded.
- **Political and economic conditions**—The value of the fund's foreign investments may be adversely affected by political and social instability in their home countries and by changes in economic or taxation policies in those countries.
- **Regulations**—Foreign companies generally are subject to less stringent regulations, including financial and accounting controls, than are U.S. companies. As a result, there generally is less publicly available information about foreign companies than about U.S. companies.
- **Markets**—The securities markets of other countries are smaller than U.S. securities markets. As a result, many foreign securities may be less liquid and more volatile than U.S. securities.

These factors may affect the prices of securities issued by foreign companies located in developing countries more than those in countries with mature economies. For example, many developing countries have, in the past, experienced high rates of inflation or sharply devalued their currencies against the U.S. dollar, thereby causing the value of investments in companies located in those countries to decline. Transaction costs are often higher in developing countries and there may be delays in settlement procedures.

An investment in the fund is not a deposit in a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

Performance Information

The bar chart and table shown below provide an indication of the risks of investing in the fund. The fund's past performance (before and after taxes) is not necessarily an indication of its future performance.

ANNUAL TOTAL RETURNS

The following bar chart shows changes in the performance of the fund's Class A shares from year to year. The bar chart does not reflect sales loads. If it did, the annual total returns shown would be lower.

During the periods shown in the bar chart, the highest quarterly return was 43.09% (quarter ended December 31, 1999) and the lowest quarterly return was -19.18% (quarter ended September 30, 2002).

PERFORMANCE TABLE

The following performance table compares the fund's performance to that of a broad-based securities market index, a style specific index and a peer group index. The fund's performance reflects payment of sales loads, if applicable. The indices may not reflect payment of fees, expenses or taxes. The fund is not managed to track the performance of any particular index, including the indices shown below, and consequently, the performance of the fund may deviate significantly from the performance of the indices shown below.

Average Annual Total Returns

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown, and after-tax returns shown are not relevant to investors who hold their fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts. After-tax returns are shown for Class A only and after-tax returns for Class B, C and R will vary.

¹ The returns shown for the one year and five year periods are the historical performance of the fund's Class R shares since their inception and the restated historical performance of the fund's Class A shares (for periods prior to inception of the Class R shares) at net asset value, adjusted to reflect the higher Rule 12b-1 fees applicable to Class R shares. The inception date shown in the table is that of the fund's Class A shares. The inception date of the fund's Class R shares is June 3, 2002.

² The Morgan Stanley Capital International Europe, Australasia and Far East Index is a free float-adjusted market capitalization index that is designed to measure developed market equity performance, excluding U.S. & Canada. The fund has also included the MSCI EAFE[®] Growth Index, which the fund believes more closely reflects the performance of the types of securities in which the fund invests. In addition, the Lipper International Multi-Cap Growth Funds Index (which may or may not include the fund) is included for comparison to a peer group.

³ The MSCI EAFE[®] Growth Index is an unmanaged index considered representative of growth stocks of Europe, Australasia and the Far East.

⁴ The Lipper International Multi-Cap Growth Funds Index is an equally weighted representation of the largest funds in the Lipper International Multi-Cap Growth Funds category. These funds typically have an above-average price-to-cash flow ratio, price-to-book ratio, and three-year sales-per-share growth value compared to the S&P/Citigroup Broad Market Index World ex-U.S. is a subset of the developed markets portion of the S&P/Citigroup BMI Global, excluding the United States. The S&P/Citigroup BMI Global is an unmanaged float adjusted index that reflects the stock markets of all countries that meet certain market capitalization criteria.

Fee Table and Expense Example

FEE TABLE

This table describes the fees and expenses that you may pay if you buy and hold shares of the fund.

Shareholder Fees

<i>(fees paid directly from your investment)</i>	Class A	Class B	Class C	Class R
Maximum Sales Charge (Load) Imposed on Purchases <i>(as a percentage of offering price)</i>	5.50%	None	None	None
Maximum Deferred Sales Charge (Load) <i>(as a percentage of original purchase price or redemption proceeds, whichever is less)</i>	None ¹	5.00%	1.00%	None ¹
Redemption/Exchange Fee ² <i>(as a percentage of amount redeemed/exchanged)</i>	2.00%	2.00%	2.00%	2.00%

Annual Fund Operating Expenses³

<i>(expenses that are deducted from fund assets)</i>	Class A	Class B	Class C	Class R
Management Fees ⁴	0.87%	0.87%	0.87%	0.87%
Distribution and/or Service (12b-1) Fees	0.25	1.00	1.00	0.50
Other Expenses	0.32	0.32	0.32	0.32
Acquired Fund Fees	0.01	0.01	0.01	0.01
Total Annual Fund Operating Expenses	1.45	2.20	2.20	1.70

¹ A contingent deferred sales charge may apply in some cases. See "General Information—Contingent Deferred Sales Charges (CDSCs)"

² You may be charged a 2.00% fee on redemptions or exchanges of Class A, Class B, Class C and Class R shares held 30 days or less. See "General Information—Redemption Fees" for more information.

³ There is no guarantee that actual expenses will be the same as those shown in the table.

⁴ Effective July 1, 2007, the Board of Trustees approved a reduced contractual advisory fee schedule for the fund. Pursuant to the new fee schedule, the fund's maximum annual advisory fee rates range from 0.935% (for average net assets up to \$250 million) to 0.76% (for average net assets over \$10 billion). Management Fees have been restated to reflect the new fee schedule.

If a financial institution is managing your account, you may also be charged a transaction or other fee by such financial institution.

As a result of 12b-1 fees, long-term shareholders in the fund may pay more than the maximum permitted initial sales charge.

EXPENSE EXAMPLE

This example is intended to help you compare the costs of investing in different classes of the fund with the cost of investing in other mutual funds.

The expense example assumes you:

- (i) invest \$10,000 in the fund for the time periods indicated;
- (ii) redeem all of your shares at the end of the periods indicated;
- (iii) earn a 5% return on your investment before operating expenses each year;
- (iv) incur the same amount in operating expenses each year (after giving effect to any applicable contractual fee waivers and/or expense reimbursements); and
- (v) incur applicable initial sales charges (see "General Information—Choosing a Share Class" section of this prospectus for applicability of initial sales charge).

To the extent fees are waived and/or expenses are reimbursed voluntarily, your expenses will be lower. Although your actual returns and costs may be higher or lower, based on these assumptions your costs would be:

	1 Year	3 Years	5 Years	10 Years
Class A	\$689	\$983	\$1,299	\$2,190
Class B	723	988	1,380	2,344 ¹
Class C	323	688	1,180	2,534
Class R	173	536	923	2,009

You would pay the following expenses if you did not redeem your shares:

	1 Year	3 Years	5 Years	10 Years
Class A	\$689	\$983	\$1,299	\$2,190
Class B	223	688	1,180	2,344 ¹
Class C	223	688	1,180	2,534
Class R	173	536	923	2,009

¹ Assumes conversion of Class B shares to Class A shares, which occurs on or about the end of the month which is at least 8 years after the date on which shares were purchased, lowering your annual fund operating expenses from that time on.

Hypothetical Investment and Expense Information

The settlement agreement between AIM Advisors, Inc. and certain of its affiliates and the New York Attorney General requires AIM Advisors, Inc. and certain of its affiliates to provide certain hypothetical information regarding investment and expense information. The chart below is intended to reflect the annual and cumulative impact of the fund's expenses, including investment advisory fees and other fund costs, on the fund's returns over a 10-year period. The example reflects the following:

- You invest \$10,000 in the fund and hold it for the entire 10 year period;
- Your investment has a 5% return before expenses each year;
- Hypotheticals both with and without any applicable initial sales charge applied (see "General Information—Choosing a Share Class" section of this prospectus for applicability of initial sales charge); and
- There is no sales charge on reinvested dividends.

There is no assurance that the annual expense ratio will be the expense ratio for the fund classes for any of the years shown. To the extent that AIM Advisors, Inc. and certain of its affiliates make any fee waivers and/or expense reimbursements pursuant to a voluntary arrangement, your actual expenses may be less. This is only a hypothetical presentation made to illustrate what expenses and returns would be under the above scenarios; your actual returns and expenses are likely to differ (higher or lower) from those shown below.

² The hypothetical assumes you hold your investment for a full 10 years. Therefore, any applicable deferred sales charge that might apply in years one through six for Class B and year one for Class C has not been deducted.

The fund's portfolio holdings are disclosed on a regular basis in its semi-annual and annual reports to shareholders, and on Form N-Q, which is filed with the Securities and Exchange Commission (SEC) within 60 days of the fund's first and third fiscal quarter-ends. In addition, portfolio holdings information for the fund is available at <http://www.aiminvestments.com>. To reach this information, access the fund's overview page on the website. Links to the following fund information are located in the upper right side of this website page:

Information	Approximate Date of Website Posting	Information Remains Posted on Website
Top ten holdings as of month-end	15 days after month-end	Until posting of the following month's top ten holdings
Complete portfolio holdings as of calendar quarter-end	30 days after calendar quarter-end	For one year

A description of the fund's policies and procedures with respect to the disclosure of the fund's portfolio holdings is available in the fund's Statement of Additional Information, which is available at <http://www.aiminvestments.com>.

Fund Management

THE ADVISOR

A I M Advisors, Inc. (the advisor or AIM) serves as the fund's investment advisor and is responsible for its day-to-day management. The advisor is located at 11 Greenway Plaza, Suite 100, Houston, Texas 77046-1173. The advisor supervises all aspects of the fund's operations and provides investment advisory services to the fund, including obtaining and evaluating economic, statistical and financial information to formulate and implement investment programs for the fund.

The advisor has acted as an investment advisor since its organization in 1976. Today, the advisor, together with its subsidiaries, advises or manages over 225 investment portfolios, including the fund, encompassing a broad range of investment objectives.

Civil lawsuits, including a regulatory proceeding and purported class action and shareholder derivative suits, have been filed against certain of the AIM funds, INVESCO Funds Group, Inc. (IFG) (the former investment advisor to certain AIM funds), AIM, A I M Distributors, Inc. (ADI) (the distributor of the AIM funds) and/or related entities and individuals, depending on the lawsuit, alleging among other things: (i) that the defendants permitted improper market timing and related activity in the funds; and (ii) that certain funds inadequately employed fair value pricing.

Additional civil lawsuits related to the above or other matters may be filed by regulators or private litigants against the AIM funds, IFG, AIM, ADI and/or related entities and individuals in the future. You can find more detailed information concerning all of the above matters, including the parties to the civil lawsuits and summaries of the various allegations and remedies sought in such lawsuits, in the fund's Statement of Additional Information.

As a result of the matters discussed above, investors in the AIM funds might react by redeeming their investments. This might require the funds to sell investments to provide for sufficient liquidity and could also have an adverse effect on the investment performance of the funds.

ADVISOR COMPENSATION

During the fiscal year ended October 31, 2007, the advisor received compensation of 0.86% of average daily net assets after fee waivers.

A discussion regarding the basis for the Board of Trustees' approval of the investment advisory agreement of the fund is available in the fund's most recent report to shareholders for the twelve-month period ended October 31.

PORTFOLIO MANAGER(S)

The following individuals are jointly and primarily responsible for the day-to-day management of the fund's portfolio:

- Clas G. Olsson (lead manager with respect to the fund's investments in Europe and Canada), Senior Portfolio Manager, who has been responsible for the fund since 1997 and has been associated with the advisor and/or its affiliates since 1994.

- Barrett K. Sides (lead manager with respect to the fund's investments in Asia Pacific and Latin America), Senior Portfolio Manager, who has been responsible for the fund since 1995 and has been associated with the advisor and/or its affiliates since 1990.
- Shuxin Cao, Senior Portfolio Manager, who has been responsible for the fund since 2003 and has been associated with the advisor and/or its affiliates since 1997.
- Matthew W. Dennis, Portfolio Manager, who has been responsible for the fund since 2003 and has been associated with the advisor and/or its affiliates since 2000.
- Jason T. Holzer, Senior Portfolio Manager, who has been responsible for the fund since 1999 and has been associated with the advisor and/or its affiliates since 1996.

A lead manager generally has final authority over all aspects of a portion of the fund's investment portfolio, including but not limited to, purchases and sales of individual securities, portfolio construction techniques, portfolio risk assessment, and the management of daily cash flows in accordance with portfolio holdings. The degree to which a lead manager may perform these functions, and the nature of these functions, may change from time to time.

They are assisted by the advisor's Asia Pacific/Latin America and Europe/Canada Teams, which are comprised of portfolio managers and research analysts. Team members provide research support and make securities recommendations with respect to the fund's portfolio, but do not have day-to-day management responsibilities with respect to the fund's portfolio. Members of the teams may change from time to time. More information on the portfolio managers and the teams, including biographies of members of the teams, may be found on the advisor's website <http://www.aiminvestments.com>. The website is not part of this prospectus.

The fund's Statement of Additional Information provides additional information about the portfolio managers' investments in the fund, a description of their compensation structure, and information regarding other accounts they manage.

Other Information

For more information on contingent deferred sales charges, see "General Information—Contingent Deferred Sales Charges (CDSCs)" section in this prospectus.

DIVIDENDS AND DISTRIBUTIONS

The fund expects that its distributions, if any, will consist primarily of capital gains.

Dividends

The fund generally declares and pays dividends, if any, annually.

Capital Gains Distributions

The fund generally distributes long-term and short-term capital gains, if any, annually.

Financial Highlights

The financial highlights table is intended to help you understand the fund's financial performance. Certain information reflects financial results for a single fund share.

The total returns in the table represent the rate that an investor would have earned (or lost) on an investment in the fund (assuming reinvestment of all dividends and distributions).

This information has been audited by PricewaterhouseCoopers LLP, whose report, along with the fund's financial statements, is included in the fund's annual report, which is available upon request.

General Information

In addition to the fund, AIM serves as investment advisor to many other mutual funds that are offered to retail investors. The following information is about all the AIM funds that offer retail share classes.

CHOOSING A SHARE CLASS

Each of the funds offer multiple classes of shares. Each class represents an interest in the same portfolio of investments. Certain classes have higher expenses than other classes which may lower the return on your investment when compared to a less expensive class. In deciding which class of shares to purchase, you should consider the following attributes of the various share classes, among other things: (i) the eligibility requirements that apply to purchases of a particular class, (ii) the initial sales charges and contingent deferred sales charges (CDSCs), if any, applicable to the class, (iii) the 12b-1 fee, if any, paid by the class, and (iv) any services you may receive from a financial intermediary. Please contact your financial advisor to assist you in making your decision. In addition to the share classes shown in the chart below, AIM Money Market Fund offers AIM Cash Reserve Shares and AIM Summit Fund offers Class P shares.

¹ Class A shares of AIM Tax-Free Intermediate Fund and Investor Class shares of AIM Money Market Fund, AIM Tax-Exempt Cash Fund, Premier Portfolio, Premier Tax-Exempt Portfolio and Premier U.S. Government Money Portfolio do not have a 12b-1 fee.

² Class B shares of AIM Money Market Fund convert to AIM Cash Reserve Shares.

³ CDSC does not apply to redemption of Class C shares of AIM LIBOR Alpha Fund or AIM Short Term Bond Fund unless you received Class C shares of AIM LIBOR Alpha Fund or AIM Short Term Bond Fund through an exchange from Class C shares from another AIM Fund that is still subject to a CDSC.

⁴ Class C shares of AIM Floating Rate Fund have a 12b-1 fee of 0.75%.

SHARE CLASS ELIGIBILITY

Class A, A3, B, C and AIM Cash Reserve Shares

Class A, A3, B, C and AIM Cash Reserve Shares are available to all retail investors, including individuals, trusts, corporations and other business and charitable organizations and employee benefit plans. The share classes offer different fee structures which are intended to compensate financial intermediaries for services provided in connection with the sale of shares and continued maintenance of the customer relationship. You should consider the services provided by your financial advisor and any other intermediaries who will be involved in the servicing of your account when choosing a share class.

Class B shares are not available as an investment for retirement plans maintained pursuant to Section 401 of the Internal Revenue Code (the Code). These plans include 401(k) plans (including AIM Solo 401(k) plans), money purchase pension plans and profit sharing plans. However, plans that have existing accounts invested in Class B shares will continue to be allowed to make additional purchases.

Class P Shares

In addition to the other share classes discussed herein, the AIM Summit Fund offers Class P shares, which were historically sold only through the AIM Summit Investors Plans I and II (each a Plan and, collectively, the Summit Plans). Class P shares are sold with no initial sales charge and have a 12b-1 fee of 0.10%. However, Class P shares are not sold to members of the general public. Only shareholders who had accounts in the Summit Plans at the close of business on December 8, 2006 may purchase Class P shares and only until the total of their combined investments in the Summit Plans and in Class P shares directly equals the face amount of their former Plan under the 30 year extended investment option. The face amount of a Plan is the combined total of all scheduled monthly investments under the Plan. For a Plan with a scheduled monthly investment of \$100.00, the face amount would have been \$36,000.00 under the 30 year extended investment option.

Class R Shares

Class R shares are generally available only to employee benefit plans. These may include, for example, retirement and deferred compensation plans maintained pursuant to Sections 401, 403, and 457 of the Code; nonqualified deferred compensation plans; health savings accounts maintained pursuant to Section 223 of the Code; and voluntary employees' beneficiary arrangements maintained pursuant to Section 501(c)(9) of the Code. Retirement plans maintained pursuant to Section 401 generally include 401(k) plans, profit sharing plans, money purchase pension plans, and defined benefit plans. Retirement plans maintained pursuant to Section 403 must be established and maintained by non-profit organizations operating pursuant to Section 501(c)(3) of the Code in order to purchase Class R shares. Class R shares are generally not available for individual retirement accounts (IRAs) such as traditional, Roth, SEP, SAR-SEP and SIMPLE IRAs.

Investor Class Shares

Some of the funds offer Investor Class shares. Investor Class shares are sold with no initial sales charge and have a maximum 12b-1 fee of 0.25%. Investor Class shares are not sold to members of the general public. Only the following persons may purchase Investor Class shares:

- Investors who established accounts prior to April 1, 2002, in Investor Class shares who have continuously maintained an account in Investor Class shares (this includes anyone listed in the registration of an account, such as a joint owner, trustee or custodian, and immediate family members of such persons). These investors are referred to as "grandfathered investors."
- Customers of certain financial intermediaries which have had relationships with the funds' distributor or any funds that offered Investor Class shares prior to April 1, 2002, who have continuously maintained such relationships. These intermediaries are referred to as "grandfathered intermediaries."
- Employee benefit plans; provided, however, that retirement plans maintained pursuant to Section 403 must be established and maintained by non-profit organizations operating pursuant to Section 501(c)(3) of the Code in order to purchase Investor Class shares, unless the plan is considered a grandfathered investor or the account is opened through a grandfathered intermediary. Investor Class shares are generally not available for IRAs, unless the IRA depositor is considered a grandfathered investor or the account is opened through a grandfathered intermediary.
- Any trustee, director, officer or employee of any fund or of Invesco Ltd. or any of its subsidiaries or affiliates, or any employee benefit plan maintained by any of them (this includes any immediate family members of such persons).

DISTRIBUTION AND SERVICE (12b-1) FEES

Except as noted below, each fund has adopted a distribution plan pursuant to SEC Rule 12b-1. A 12b-1 plan allows a fund to pay distribution fees to AIM Distributors, Inc. (AIM Distributors) to compensate or reimburse, as applicable, AIM Distributors for its efforts in connection with the sale and distribution of the fund's shares and for services provided to shareholders, all or a substantial portion of which are paid to the dealer of record. Because the funds pay these fees out of their assets on an ongoing basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges.

The following funds and share classes do not have 12b-1 plans:

- AIM Tax-Free Intermediate Fund, Class A shares.
- AIM Money Market Fund, Investor Class shares.
- AIM Tax-Exempt Cash Fund, Investor Class shares.
- Premier Portfolio, Investor Class shares.
- Premier U.S. Government Money Portfolio, Investor Class shares.
- Premier Tax-Exempt Portfolio, Investor Class shares.

INITIAL SALES CHARGES (CLASS A SHARES ONLY)

The funds are grouped into four categories for determining initial sales charges. The "Other Information" section of each fund's prospectus will tell you the sales charge category in which the fund is classified. As used below, the term "offering price" with respect to all categories of Class A shares includes the initial sales charge.

Class A Shares Sold Without an Initial Sales Charge

Certain categories of investors are permitted to purchase and certain intermediaries are permitted to sell Class A shares of the funds without an initial sales charge because their transactions involve little or no expense. The investors who are entitled to purchase Class A shares without paying an initial sales charge include the following:

- Any current or retired trustee, director, officer or employee of any fund or of Invesco Ltd. or any of its subsidiaries or affiliates, or any foundation, trust or employee benefit plan maintained by any of them (this includes any immediate family members of such persons).
 - Any registered representative or employee of any intermediary who has an agreement with AIM Distributors to sell shares of the funds (this includes any immediate family members of such persons).
 - Any investor who purchases their shares through an approved fee-based program (this may include any type of account for which there is some alternative arrangement made between the investor and the intermediary to provide for compensation of the intermediary for services rendered in connection with the sale of the shares and maintenance of the customer relationship).
 - Any investor who purchases their shares with the proceeds of a rollover, transfer or distribution from a retirement plan or individual retirement account for which AIM Distributors acts as the prototype sponsor to another retirement plan or individual retirement account for which AIM Distributors acts as the prototype sponsor, to the extent that such proceeds are attributable to the redemption of shares of a fund held through the plan or account.
 - Employee benefit plans; provided, however, that they meet at least one of the following requirements:
 - a. the plan has assets of at least \$1 million;
 - b. there are at least 100 employees eligible to participate in the plan; or
 - c. all plan transactions are executed through a single omnibus account per fund; further provided that retirement plans maintained pursuant to Section 403(b) of the Code are not eligible to purchase shares without paying an initial sales charge based on the aggregate investment made by the plan or the number of eligible employees unless the employer or plan sponsor is a tax-exempt organization operated pursuant to Section 501(c)(3) of the Code.
 - Any investor who maintains an account in Investor Class shares of a fund (this includes anyone listed in the registration of an account, such as a joint owner, trustee or custodian, and immediate family members of such persons).
 - Qualified Tuition Programs created and maintained in accordance with Section 529 of the Code.
 - Insurance company separate accounts.
- No investor will pay an initial sales charge in the following circumstances:
- When buying Class A shares of AIM Tax-Exempt Cash Fund and Class A3 shares of AIM Limited Maturity Treasury Fund or AIM Tax-Free Intermediate Fund.
 - When reinvesting dividends and distributions.
 - When exchanging shares of one fund, that were previously assessed a sales charge, for shares of another fund.
 - As a result of a fund's merger, consolidation, or acquisition of the assets of another fund.

Additional information regarding eligibility to purchase shares at reduced or without sales charges is available on the Internet at www.aiminvestments.com, then click on the link for My Account, then Service Center, or consult the fund's Statement of Additional Information, which is available on that same website or upon request free of charge.

Reduced Sales Charges and Sales Charge Exceptions

You may qualify for reduced sales charges or sales charge exceptions. To qualify for these reductions or exceptions, you or your financial advisor must notify the transfer agent at the time of purchase that your purchase qualifies for such treatment. Certain individuals and employer-sponsored retirement plans may link accounts for the purpose of qualifying for lower initial sales charges. You or your financial consultant must provide other account numbers to be considered for Rights of Accumulation, or mark the Letter of Intent section on the account application, or provide other relevant documentation, so that the transfer agent can verify your eligibility for the reduction or exception. Please consult the fund's Statement of Additional Information for details.

Purchases of Class A shares of AIM Tax-Exempt Cash Fund, Class A3 shares of AIM Limited Maturity Treasury Fund and AIM Tax-Free Intermediate Fund, AIM Cash Reserve Shares of AIM Money Market Fund and Investor Class shares of any fund will not be taken into account in determining whether a purchase qualifies for a reduction in initial sales charges pursuant to *Rights of Accumulation* or *Letters of Intent*.

Rights of Accumulation

You may combine your new purchases of Class A shares of a fund with other fund shares currently owned (Class A, B, C, P or R) and investments in the AIM College Savings Plan[®] for the purpose of qualifying for the lower initial sales charge rates that apply to larger purchases. The applicable initial sales charge for the new purchase is based on the total of your current purchase and the public offering price of all other shares you own. The transfer agent may automatically link certain accounts registered in the same name with the same taxpayer identification number for the purpose of qualifying you for lower initial sales charge rates. There may be other accounts that are eligible to be linked, as described in the fund's Statement of Additional Information. However, if the accounts are not registered in the same name with the same taxpayer identification number, you will have to contact the transfer agent to request that those accounts be linked. The transfer agent will not be responsible for identifying all accounts that may be eligible to be linked.

Letters of Intent

Under a Letter of Intent (LOI), you commit to purchase a specified dollar amount of Class A shares of one or more funds during a 13-month period. The amount you agree to purchase determines the initial sales charge you pay. If the full amount committed to in the LOI is not invested by the end of the 13-month period, your account will be assessed the higher initial sales charge that would normally be applicable to the amount actually invested.

Reinstatement Following Redemption

If you redeem shares of a fund, you may reinvest all or a portion of the proceeds from the redemption in the same share class of any fund in the same Category within 180 days of the redemption without paying an initial sales charge. Class B and P redemptions may be reinvested only into Class A shares with no initial sales charge. This reinstatement privilege does not apply to:

- A purchase made through a regularly scheduled automatic investment plan, such as a purchase by a regularly scheduled payroll deduction or transfer from a bank account, or
- A purchase paid for with proceeds from the redemption of shares that were held indirectly through an employee benefit plan.

In order to take advantage of this reinstatement privilege, you must inform your financial advisor or the transfer agent that you wish to do so at the time of your investment.

CONTINGENT DEFERRED SALES CHARGES (CDSCs)

CDSCs on Class A Shares and AIM Cash Reserve Shares of AIM Money Market Fund

You can purchase \$1,000,000 or more (a Large Purchase) of Class A shares of Category I, II and IV funds without paying an initial sales charge. However, if you redeem these shares prior to 18 months after the date of purchase, they will be subject to a CDSC of 1%.

If you currently own Class A shares of a Category I, II or IV fund, and make additional purchases without paying an initial sales charge that result in account balances of \$1,000,000 or more, the additional shares purchased will be subject to an 18-month, 1% CDSC.

If AIM Distributors pays a concession to the dealer of record in connection with a Large Purchase of Class A shares by an employee benefit plan, the Class A shares may be subject to a 1% CDSC if all of the plan's shares are redeemed within one year from the date of the plan's initial purchase.

If you acquire AIM Cash Reserve Shares of AIM Money Market Fund, Class A shares of AIM Tax-Exempt Cash Fund, Class A3 shares of AIM Limited Maturity Treasury Fund or AIM Tax-Free Intermediate Fund through an exchange involving Class A shares that were subject to a CDSC, the shares acquired as a result of the exchange will continue to be subject to that same CDSC.

CDSCs on Class A Shares and AIM Cash Reserve Shares Acquired by Exchange

If you purchase \$1,000,000 or more of Class A shares of any fund, or if you make additional purchases of Class A shares without paying an initial sales charge, your shares may be subject to a CDSC upon redemption in the following circumstances:

Shares Initially Purchased	Shares Held After an Exchange	CDSC Applicable Upon Redemption of Shares
<ul style="list-style-type: none"> • Class A shares of any Category I, II or IV fund 	<ul style="list-style-type: none"> • Class A shares of any Category I, II or IV fund • AIM Cash Reserve Shares of AIM Money Market Fund • Class A Shares of AIM Tax-Exempt Cash Fund • Class A3 Shares of AIM Limited Maturity Treasury Fund and AIM Tax-Free Intermediate Fund 	<ul style="list-style-type: none"> • 1% if shares are redeemed within 18 months of initial purchase of any Category I, II or IV Fund

CDSCs on Class B Shares and on Class C Shares of Funds Other Than AIM LIBOR Alpha Fund and AIM Short Term Bond Fund

Class B and Class C shares are sold without an initial sales charge. However, they are subject to a CDSC. If you redeem your shares during the CDSC period, you will be assessed a CDSC as follows, unless you qualify for one of the CDSC exceptions outlined below:

Year since purchase made:	Class B	Class C
First	5%	1%
Second	4	None
Third	3	None
Fourth	3	None
Fifth	2	None
Sixth	1	None
Seventh and following	None	None

CDSCs on Class C Shares — Employee Benefit Plan

AIM Distributors pays a concession to the dealer of record in connection with a purchase of Class C shares by an employee benefit plan; the Class C shares are subject to a 1.00% CDSC at the time of redemption if all of the plan’s shares are redeemed within one year from the date of the plan’s initial purchase.

CDSCs on Class C Shares of AIM LIBOR Alpha Fund and AIM Short Term Bond Fund

Class C shares of AIM LIBOR Alpha Fund and AIM Short Term Bond Fund are not normally subject to a CDSC. However, if you acquired shares of those funds through an exchange, and the shares originally purchased were subject to a CDSC, the shares acquired as a result of the exchange will continue to be subject to that same CDSC. Conversely, if you acquire Class C shares of any other fund as a result of an exchange involving Class C shares of AIM LIBOR Alpha Fund or AIM Short Term Bond Fund that were not subject to a CDSC, then the shares acquired as a result of the exchange will not be subject to a CDSC.

CDSCs on Class R Shares

Class R shares are not normally subject to a CDSC. However, if AIM Distributors pays a concession to the dealer of record in connection with a purchase of Class R shares by an employee benefit plan, the Class R shares are subject to a 0.75% CDSC at the time of redemption if all of the plan’s shares are redeemed within one year from the date of the plan’s initial purchase.

Computing a CDSC

The CDSC on redemptions of shares is computed based on the lower of their original purchase price or current net asset value, net of reinvested dividends and capital gains distributions. In determining whether to charge a CDSC, shares are accounted for on a first-in, first-out basis, which means that you will redeem shares on which there is no CDSC first and, then, shares in the order of their purchase.

CDSC Exceptions

Investors who own shares that are otherwise subject to a CDSC will not pay a CDSC in the following circumstances:

- If you participate in the Systematic Redemption Plan and withdraw up to 12% of the value of your shares that are subject to a CDSC in any twelve-month period.
- If you redeem shares to pay account fees.
- If you are the executor, administrator or beneficiary of an estate or are otherwise entitled to assets remaining in an account following the death or post-purchase disability of a shareholder or beneficial owner and you choose to redeem those shares.

There are other circumstances under which you may be able to redeem shares without paying CDSCs. Additional information regarding CDSC exceptions is available on the Internet at www.aiminvestments.com, then click on the link for My Account, then Service Center, or consult the fund’s Statement of Additional Information, which is available on that same website or upon request free of charge.

Shares acquired through the reinvestment of dividends and distributions are not subject to CDSCs.

The following share classes are sold with no CDSC:

- Class A shares of any Category III Fund.
- Class A shares of AIM Tax-Exempt Cash Fund.
- Class A3 shares of AIM Limited Maturity Treasury Fund and AIM Tax-Free Intermediate Fund.
- AIM Cash Reserve Shares of AIM Money Market Fund.
- Investor Class shares of any fund.
- Class P shares of AIM Summit Fund.

REDEMPTION FEES

Certain funds impose a 2% redemption fee (on redemption proceeds) if you redeem or exchange shares within 31 days of purchase. Please refer to the applicable fund’s prospectus to determine whether that fund imposes a redemption fee. As of the date of this prospectus, the following funds impose redemption fees:

AIM Asia Pacific Growth Fund	AIM Global Aggressive Growth Fund	AIM Gold & Precious Metals Fund	AIM International Total Return Fund
AIM China Fund	AIM Global Equity Fund	AIM High Yield Fund	AIM Japan Fund
AIM Developing Markets Fund	AIM Global Growth Fund	AIM International Allocation Fund	AIM S&P 500 Index Fund
AIM European Growth Fund	AIM Global Health Care Fund	AIM International Core Equity Fund	AIM Trimark Fund
AIM European Small Company Fund	AIM Global Real Estate Fund	AIM International Growth Fund	
AIM Floating Rate Fund	AIM Global Value Fund	AIM International Small Company Fund	

The redemption fee will be retained by the fund from which you are redeeming or exchanging shares, and is intended to offset the trading costs, market impact and other costs associated with short-term money movements in and out of the fund. The redemption fee is imposed on a first-in, first-out basis, which means that you will redeem shares in the order of their purchase.

Redemption fees generally will not be charged in the following circumstances:

- Redemptions and exchanges of shares held in accounts maintained by intermediaries that do not have the systematic capability to assess the redemption fees.
- Redemptions and exchanges of shares held by funds of funds, qualified tuition plans maintained pursuant to Section 529 of the Code, and variable insurance contracts which use the funds as underlying investments.
- Redemptions and exchanges effectuated pursuant to automatic investment rebalancing or dollar cost averaging programs or systematic withdrawal plans.
- Redemptions requested within 31 days following the death or post-purchase disability of an account owner.
- Redemptions or exchanges initiated by a fund.

The following shares are not subject to redemption fees, irrespective of whether they are redeemed in accordance with any of the exceptions set forth above:

- Shares acquired through the reinvestment of dividends and distributions.
- Shares acquired through systematic purchase plans.
- Shares acquired in connection with a rollover or transfer of assets from the trustee or custodian of an employee benefit plan to the trustee or custodian of another employee benefit plan.

Shares held by employee benefit plans will only be subject to redemption fees if the shares were acquired by exchange and are redeemed by exchange within 31 days of purchase.

Some investments in the funds are made through accounts that are maintained by intermediaries (rather than the funds' transfer agent) and some investments are made indirectly through products that use the funds as underlying investments, such as employee benefit plans, funds of funds, qualified tuition plans, and variable insurance contracts (these products are generally referred to as conduit investment vehicles). If shares of the funds are held in an account maintained by an intermediary or in the name of a conduit investment vehicle (and not in the names of individual investors), the intermediary account or conduit investment vehicle may be considered an individual shareholder of the funds for purposes of assessing redemption fees. In these cases, the funds are likely to be limited in their ability to assess redemption fees on transactions initiated by individual investors, and the applicability of redemption fees will be determined based on the aggregate holdings and redemptions of the intermediary account or the conduit investment vehicle.

If shares of the funds are held in an account maintained by an intermediary or in the name of a conduit investment vehicle (and not in the names of individual investors), the intermediary or conduit investment vehicle may impose rules intended to limit short-term money movements in and out of the funds which differ from those described in this prospectus. In such cases, there may be redemption fees imposed by the intermediary or conduit investment vehicle on different terms (and subject to different exceptions) than those set forth above. Please consult your financial advisor or other intermediary for details.

The funds have the discretion to waive the 2% redemption fee if a fund is in jeopardy of losing its registered investment company qualification for tax purposes.

Your financial advisor or other intermediary may charge service fees for handling redemption transactions. Your shares also may be subject to a CDSC in addition to the redemption fee.

Temporary Redemption Fee for Class A Shares of AIM Select Real Estate Income Fund

On March 12, 2007, AIM Select Real Estate Income Fund, a closed-end fund, was reorganized as an open-end fund. Shareholders of the Common Shares of the closed-end AIM Select Real Estate Income Fund received Class A shares of the open-end AIM Select Real Estate Income Fund in connection with the reorganization. If you redeem those shares received in connection with the reorganization, including redeeming by exchange, within 12 months following the date of the reorganization, you will be charged a 2.00% redemption fee.

This 2.00% redemption fee will not apply to Class A shares of the open-end AIM Select Real Estate Income Fund that are purchased after the reorganization. The redemption fee will be retained by the open-end AIM Select Real Estate Income Fund to offset transaction costs and other expenses associated with redemptions or exchanges. It is designed, in part, to stabilize outflows from the open-end AIM Select Real Estate Income Fund after the reorganization and to deter arbitrage trades by investors seeking to profit from the difference between the cost of purchasing Common Shares of the closed-end AIM Select Real Estate Income Fund at a discount to net asset value, and the proceeds of redeeming Class A shares of the open-end AIM Select Real Estate Fund at their net asset value following the reorganization. To the extent that arbitrage and other short-term trading still occurs, the redemption fee would protect AIM Select Real Estate Income Fund and its long-term shareholders by recouping some of the costs of the arbitrage-related redemptions and exchanges. The redemption fee may also offset to some extent some of the direct and indirect costs associated with the reorganization.

PURCHASING SHARES

If you hold your shares through a financial advisor or other intermediary, your eligibility to purchase shares and the terms by which you may purchase, redeem and exchange shares may differ depending on that institution's policies.

Minimum Investments

There are no minimum investments for Class P or R shares for fund accounts. The minimum investments for Class A, A3, B, C, and Investor Class shares for fund accounts are as follows:

Type of Account	Initial Investment Per Fund	Additional Investments Per Fund
Wrap-fee accounts managed by your financial advisor	None	None
Employee benefit plans, SEP, SARSEP and SIMPLE IRA plans	None	None
Any type of account if the investor is purchasing shares through a systematic purchase plan	\$ 50	\$50
IRAs, Roth IRAs and Coverdell ESAs	250	25
All other accounts	1,000	50

AIM Distributors has the discretion to accept orders for lesser amounts.

Purchase orders will not be processed unless the account application and purchase payment are received in good order. In accordance with the USA PATRIOT Act, if you fail to provide all the required information requested in the current account application, your purchase order will not be processed. Additionally, federal law requires that the fund verify and record your identifying information.

Systematic Purchase Plan

You can arrange for periodic investments in any of the funds by authorizing the transfer agent to withdraw the amount of your investment from your bank account on a day or dates you specify and in an amount of at least \$50 per fund. You may stop the Systematic Purchase Plan at any time by giving the transfer agent notice ten days prior to your next scheduled withdrawal. Certain financial advisors and other intermediaries may also offer systematic purchase plans.

Dollar Cost Averaging

Dollar Cost Averaging allows you to make automatic periodic exchanges, if permitted, from one fund to another fund or multiple other funds. The account from which exchanges are to be made must have a minimum balance of \$5,000 before you can use this option. Exchanges will occur on (or about) the day of the month you specify, in the amount you specify. Dollar Cost Averaging cannot be set up for the 29th through the 31st of the month. The minimum amount you can exchange to another fund is \$50. Certain financial advisors and other intermediaries may also offer dollar cost averaging programs. If you participate in one of these programs and it is the same or similar to AIM's Dollar Cost Averaging program, exchanges made under the program generally will not be counted toward the limitation of four exchanges out of a fund per calendar year, discussed below.

Automatic Dividend and Distribution Investment

Your dividends and distributions may be paid in cash or reinvested in the same fund or another fund without paying an initial sales charge. Unless you specify otherwise, your dividends and distributions will automatically be reinvested in the same fund. If you elect to receive your distributions by check, and the distribution amount is \$10 or less, then the amount will be automatically reinvested in the same fund and no check will be issued. If you have elected to receive distributions by check, and the postal service is unable to deliver checks to your address of record, then your distribution election may be converted to having all subsequent distributions reinvested in the same fund and no checks will be issued. You should contact the

transfer agent to change your distribution option, and your request to do so must be received by the transfer agent before the record date for a distribution in order to be effective for that distribution. No interest will accrue on amounts represented by uncashed distribution checks.

You must comply with the following requirements to be eligible to invest your dividends and distributions in shares of another fund:

- Your account balance in the fund paying the dividend or distribution must be at least \$5,000; and
- Your account balance in the fund receiving the dividend or distribution must be at least \$500.

Portfolio Rebalancing Program

If you have at least \$5,000 in your account, you may participate in the Portfolio Rebalancing Program. Under this Program, you can designate how the total value of your fund holdings should be rebalanced, on a percentage basis, between two and ten of your funds on a quarterly, semiannual or annual basis. Your portfolio will be rebalanced through the exchange of shares in one or more of your funds for shares of the same class of one or more other funds in your portfolio. Rebalancing will not occur if your portfolio is within 2% of your stated allocation. If you wish to participate in the Program, make changes or cancel the Program, the transfer agent must receive your request to participate, changes, or cancellation in good order at least five business days prior to the next rebalancing date, which is normally the 28th day of the last month of the period you choose. We may modify, suspend or terminate the Program at any time on 60 days' prior written notice to participating investors. Certain financial advisors and other intermediaries may also offer portfolio rebalancing programs. If you participate in one of these programs and it is the same as or similar to AIM's program, exchanges made under the program generally will not be counted toward the limitation of four exchanges out of a fund per calendar year, discussed below.

Retirement Plans Sponsored by AIM Distributors

AIM Distributors acts as the prototype sponsor for certain types of retirement plan documents. These plan documents are generally available to anyone wishing to invest plan assets in the funds. These documents are provided subject to terms, conditions and fees that vary by plan type. Contact your financial advisor or other intermediary for details.

REDEEMING SHARES

For funds other than Premier Portfolio, Premier Tax-Exempt Portfolio and Premier U.S. Government Money Portfolio, the transfer agent must receive your call during the hours of the customary trading session of the New York Stock Exchange (NYSE) in order to effect the redemption at that day's net asset value. For Premier Portfolio, Premier Tax-Exempt Portfolio and Premier U.S. Government Money Portfolio, the transfer agent must receive your call before the last net asset value determination in order to effect the redemption that day.

How to Redeem Shares

Through a Financial Advisor or Other Intermediary	Contact your financial advisor or intermediary (including your retirement plan administrator).
By Mail	<p>Send a written request to the transfer agent which includes:</p> <ul style="list-style-type: none"> • Original signatures of all registered owners/trustees; • The dollar value or number of shares that you wish to redeem; • The name of the fund(s) and your account number; and • Signature guarantees, if necessary (see below). <p>The transfer agent may require that you provide additional documentation, or information, such as corporate resolutions or powers of attorney, if applicable. If you are redeeming from an IRA or other type of retirement account, you must complete the appropriate distribution form.</p>
By Telephone	<p>Call the transfer agent at 1-800-959-4246. You will be allowed to redeem by telephone if:</p> <ul style="list-style-type: none"> • Your redemption proceeds are to be mailed to your address on record (and there has been no change in your address of record within the last 30 days) or transferred electronically to a pre-authorized checking account; • You do not hold physical share certificates; • You can provide proper identification information; • Your redemption proceeds do not exceed \$250,000 per fund; and • You have not previously declined the telephone redemption privilege. <p>You may, in limited circumstances, initiate a redemption from an AIM IRA account by telephone. Redemptions from other types of retirement plan accounts may be initiated only in writing and require the completion of the appropriate distribution form.</p>
Automated Investor Line	Call the AIM 24-hour Automated Investor Line at 1-800-246-5463. You may place your redemption order after you have provided the bank instructions that will be requested.
By Internet	<p>Place your redemption request at www.aiminvestments.com. You will be allowed to redeem by Internet if:</p> <ul style="list-style-type: none"> • You do not hold physical share certificates; • You can provide proper identification information; • Your redemption proceeds do not exceed \$250,000 per fund; and • You have already provided proper bank information. <p>Redemptions from most retirement plan accounts may be initiated only in writing and require the completion of the appropriate distribution form.</p>

Timing and Method of Payment

We normally will send out checks within one business day, and in any event no more than seven days, after your redemption request is received in good order (meaning that all necessary information and documentation related to the redemption request have been provided to the transfer agent). If you redeem shares recently purchased by check or ACH, you may be required to wait up to ten business days before we send your redemption proceeds. This delay is necessary to ensure that the purchase has cleared. Payment may be postponed in cases where the SEC declares an emergency or normal trading is halted on the NYSE.

Redemption checks are mailed to your address of record, via first class U.S. mail, unless you make other arrangements with the transfer agent.

We use reasonable procedures to confirm that instructions communicated via telephone and the Internet are genuine, and we are not liable for losses arising from actions taken in accordance with instructions that are reasonably believed to be genuine.

Systematic Withdrawals

You may arrange for regular periodic withdrawals from your account in amounts equal to or greater than \$50 per fund. We will redeem the appropriate number of shares from your account to provide redemption proceeds in the amount requested. You must have an account balance of at least \$5,000 in order to establish a Systematic Redemption Plan. You can stop this plan at any time by giving ten days prior notice to the transfer agent.

Expedited Redemptions (AIM Cash Reserve Shares of AIM Money Market Fund only)

If you place your redemption order before 11:30 a.m. Eastern Time and request an expedited redemption, we will transmit payment of redemption proceeds on that same day via federal wire to a bank of record on your account. If we receive your redemption order after 11:30 a.m. Eastern Time and before the close of the customary trading session of the NYSE, we will transmit payment on the next business day.

Check Writing

The transfer agent provides check writing privileges for accounts in the following funds and share classes:

- AIM Money Market Fund, AIM Cash Reserve Shares and Investor Class shares
- AIM Tax-Exempt Cash Fund, Class A shares and Investor Class shares
- Premier Portfolio, Investor Class shares
- Premier Tax-Exempt Portfolio, Investor Class shares
- Premier U.S. Government Money Portfolio, Investor Class shares

You may redeem shares of these funds by writing checks in amounts of \$250 or more if you have completed an authorization form. Redemption by check is not available for retirement accounts. Checks are not eligible to be converted to ACH by the payee. You may not give authorization to a payee by phone to debit your account by ACH for a debt owed to the payee.

Signature Guarantees

We require a signature guarantee in the following circumstances:

- When your redemption proceeds will equal or exceed \$250,000 per fund.
- When you request that redemption proceeds be paid to someone other than the registered owner of the account.
- When you request that redemption proceeds be sent somewhere other than the address of record or bank of record on the account.
- When you request that redemption proceeds be sent to a new address or an address that changed in the last 30 days.

The transfer agent will accept a guarantee of your signature by a number of different types of financial institutions. Call the transfer agent for additional information. Some institutions have transaction amount maximums for these guarantees. Please check with the guarantor institution to determine whether the signature guarantee offered will be sufficient to cover the value of your transaction request.

Redemptions in Kind

Although the funds generally intend to pay redemption proceeds solely in cash, the funds reserve the right to determine, in their sole discretion, whether to satisfy redemption requests by making payment in securities or other property (known as a redemption in kind).

Redemptions Initiated by the Funds

If your account (Class A, A3, B, C, P and Investor Class shares only) has been open at least one year, you have not made an additional purchase in the account during the past six calendar months, and the value of your account falls below \$500 for three consecutive months, the funds have the right to redeem the account after giving you 60 days' prior written notice. You may avoid having your account redeemed during the notice period by bringing the account value up to \$500 or by initiating a Systematic Purchase Plan.

If the fund determines that you have not provided a correct Social Security or other tax identification number on your account application, or the fund is not able to verify your identity as required by law, the fund may, at its discretion, redeem the account and distribute the proceeds to you.

EXCHANGING SHARES

You may, under certain circumstances, exchange shares in one fund for those of another fund. An exchange is the purchase of shares in one fund which is paid for with the proceeds from a redemption of shares of another fund effectuated on the same day. Accordingly, the procedures and processes

applicable to redemptions of fund shares, as discussed under the heading “Redeeming Shares” above, will apply. Before requesting an exchange, review the prospectus of the fund you wish to acquire.

All exchanges are subject to the limitations set forth in the prospectuses of the funds. If you wish to exchange shares of one fund for those of another fund, you must consult the prospectus of the fund whose shares you wish to acquire to determine whether the fund is offering shares to new investors and whether you are eligible to acquire shares of that fund.

Permitted Exchanges

Except as otherwise provided below under “Exchanges Not Permitted”, you generally may exchange your shares for shares of the same class of another fund. The following below shows permitted exchanges:

Exchange From	Exchange To
AIM Cash Reserve Shares	Class A, A3, B, C, R, Investor Class
Class A	Class A, A3, Investor Class, AIM Cash Reserve Shares
Class A3	Class A, A3, Investor Class, AIM Cash Reserve Shares
Investor Class	Class A, A3, Investor Class
Class P	Class A, A3, AIM Cash Reserve Shares
Class B	Class B
Class C	Class C
Class R	Class R

Exchanges Not Permitted

The following exchanges are not permitted:

- Investor Class shares cannot be exchanged for Class A shares of any fund which offers Investor Class shares.
- Exchanges into Class A shares of AIM Limited Maturity Treasury Fund and AIM Tax-Free Intermediate Fund (also known as the Category III funds) are not permitted.
- Class A Shares of AIM Limited Maturity Treasury Fund and AIM Tax-Free Intermediate Fund cannot be exchanged for Class A3 Shares of those funds.
- AIM Cash Reserve Shares cannot be exchanged for Class B, C or R shares if the shares being exchanged were acquired by exchange from Class A shares of any fund.

Exchange Conditions

The following conditions apply to all exchanges:

- Shares must have been held for at least one day prior to the exchange with the exception of dividends and distributions that are reinvested; and
- If you have physical share certificates, you must return them to the transfer agent in order to effect the exchange.

Under unusual market conditions, a fund may delay the exchange of shares for up to five business days if it determines that it would be materially disadvantaged by the immediate transfer of exchange proceeds. The exchange privilege is not an option or right to purchase shares. Any of the participating funds or the distributor may modify or terminate this privilege at any time.

Limit on the Number of Exchanges

You will generally be limited to four exchanges out of a fund per calendar year (other than the money market funds); provided, however, that the following transactions will not count toward the exchange limitation:

- Exchanges of shares held in accounts maintained by intermediaries that do not have the systematic capability to apply the exchange limitation.
- Exchanges of shares held by funds of funds, qualified tuition plans maintained pursuant to Section 529 of the Code, and insurance company separate accounts which use the funds as underlying investments.
- Generally, exchanges effectuated pursuant to automatic investment rebalancing or dollar cost averaging programs.
- Exchanges initiated by a fund or by the trustee, administrator or other fiduciary of an employee benefit plan (not in response to distribution or exchange instructions received from a plan participant).

Each fund reserves the discretion to accept exchanges in excess of these guidelines on a case-by-case basis if the fund, or its designated agent, believes that granting such exceptions would be consistent with the best interests of shareholders.

There is no limit on the number of exchanges out of AIM Limited Maturity Treasury Fund, AIM Money Market Fund, AIM Tax-Exempt Cash Fund, Premier Portfolio, Premier Tax-Exempt Portfolio and Premier U.S. Government Money Portfolio.

If you exchange shares of one fund for shares of multiple other funds as part of a single transaction, that transaction is counted as one exchange out of a fund.

Initial Sales Charges and CDSCs Applicable to Exchanges

You may be required to pay an initial sales charge when exchanging from a fund with a lower initial sales charge than the one into which you are exchanging. If you exchange into shares that are subject to a CDSC, we will begin the holding period for purposes of calculating the CDSC on the date you made your initial purchase.

RIGHTS RESERVED BY THE FUNDS

Each fund and its agents reserve the right at any time to:

- Reject or cancel all or any part of any purchase or exchange order.
- Modify any terms or conditions related to the purchase, redemption or exchange of shares of any fund.
- Reject or cancel any request to establish a Systematic Purchase Plan, Systematic Redemption Plan or Portfolio Rebalancing Program.
- Suspend, change or withdraw all or any part of the offering made by this prospectus.

PRICING OF SHARES

Determination of Net Asset Value

The price of each fund's shares is the fund's net asset value per share. The funds value portfolio securities for which market quotations are readily available at market value. The funds value all other securities and assets for which market quotations are unavailable or unreliable at their fair value in good faith using procedures approved by the Boards of Trustees of the funds (collectively, the Board). Securities and other assets quoted in foreign currencies are valued in U.S. dollars based on the prevailing exchange rates on that day.

Even when market quotations are available, they may be stale or unreliable because the security is not traded frequently, trading on the security ceased before the close of the trading market or issuer specific events occurred after the security ceased trading or because of the passage of time between the close of the market on which the security trades and the close of the NYSE and when the fund calculates its net asset value. Issuer specific events may cause the last market quotation to be unreliable. Such events may include a merger or insolvency, events which affect a geographical area or an industry segment, such as political events or natural disasters, or market events, such as a significant movement in the U.S. market. Where market quotations are not readily available, including where AIM determines that the closing price of the security is unreliable, AIM will value the security at fair value in good faith using procedures approved by the Board. Fair value pricing may reduce the ability of frequent traders to take advantage of arbitrage opportunities resulting from potentially "stale" prices of portfolio holdings. However, it cannot eliminate the possibility of frequent trading.

Fair value is that amount that the owner might reasonably expect to receive for the security upon its current sale. Fair value requires consideration of all appropriate factors, including indications of fair value available from pricing services. A fair value price is an estimated price and may vary from the prices used by other mutual funds to calculate their net asset values.

AIM may use indications of fair value from pricing services approved by the Board. In other circumstances, the AIM valuation committee may fair value securities in good faith using procedures approved by the Board. As a means of evaluating its fair value process, AIM routinely compares closing market prices, the next day's opening prices for the security in its primary market if available, and indications of fair value from other sources. Fair value pricing methods and pricing services can change from time to time as approved by the Board.

Specific types of securities are valued as follows:

Senior Secured Floating Rate Loans and Senior Secured Floating Rate Debt Securities. Senior secured floating rate loans and senior secured floating rate debt securities are fair valued using an evaluated quote provided by an independent pricing service. Evaluated quotes provided by the pricing service may reflect appropriate factors such as ratings, tranche type, industry, company performance, spread, individual trading characteristics, institution-size trading in similar groups of securities and other market data.

Domestic Exchange Traded Equity Securities. Market quotations are generally available and reliable for domestic exchange traded equity securities. If market quotations are not available or are unreliable, AIM will value the security at fair value in good faith using procedures approved by the Board.

Foreign Securities. If market quotations are available and reliable for foreign exchange traded equity securities, the securities will be valued at the market quotations. Because trading hours for certain foreign securities end before the close of the NYSE, closing market quotations may become unreliable. If between the time trading ends on a particular security and the close of the customary trading session on the NYSE events occur that are significant and may make the closing price unreliable, the fund may fair value the security. If an issuer specific event has occurred that AIM determines, in its judgment, is likely to have affected the closing price of a foreign security, it will price the security at fair value. AIM also relies on a screening process from a pricing vendor to indicate the degree of certainty, based on historical data, that the closing price in the principal market where a foreign security trades is not the current market value as of the close of the NYSE. For foreign securities where AIM believes, at the approved degree of certainty, that the price is not reflective of current market value, AIM will use the indication of fair value from the pricing service to determine the fair value of the security. The pricing vendor, pricing methodology or degree of certainty may change from time to time.

Fund securities primarily traded on foreign markets may trade on days that are not business days of the fund. Because the net asset value of fund shares is determined only on business days of the fund, the value of the portfolio securities of a fund that invests in foreign securities may change on days when you will not be able to purchase or redeem shares of the fund.

Fixed Income Securities. Government, corporate, asset-backed and municipal bonds, convertible securities, including high yield or junk bonds, and loans, normally are valued on the basis of prices provided by independent pricing services. Prices provided by the pricing services may be determined without exclusive reliance on quoted prices, and may reflect appropriate factors such as institution-size trading in similar groups of securities, developments related to special securities, dividend rate, maturity and other market data. Prices received from pricing services are fair value prices. In addition, if the price provided by the pricing service and independent quoted prices are unreliable, the AIM valuation committee will fair value the security using procedures approved by the Board.

Short-term Securities. The funds' short-term investments are valued at amortized cost when the security has 60 days or less to maturity. AIM Money Market Fund, AIM Tax-Exempt Cash Fund, Premier Portfolio, Premier Tax-Exempt Portfolio and Premier U.S. Government Money Portfolio value all their securities at amortized cost. AIM High Income Municipal Fund, AIM Municipal Bond Fund and AIM Tax-Free Intermediate Fund value variable rate securities that have an unconditional demand or put feature exercisable within seven days or less at par, which reflects the market value of such securities.

Futures and Options. Futures contracts are valued at the final settlement price set by the exchange on which they are principally traded. Options are valued on the basis of market quotations, if available.

Swap Agreements. Swap Agreements are fair valued using an evaluated quote provided by an independent pricing service. Evaluated quotes provided by the pricing service are based on a model that may include end of day net present values, spreads, ratings, industry and company performance.

Open-end Funds. To the extent a fund invests in other open-end funds, other than open-end funds that are exchange traded, the investing fund will calculate its net asset value using the net asset value of the underlying fund in which it invests.

Each fund determines the net asset value of its shares on each day the NYSE is open for business (a business day), as of the close of the customary trading session, or earlier NYSE closing time that day. AIM Money Market Fund also determines its net asset value as of 12:00 noon Eastern Time on each business day. Premier Portfolio, Premier Tax-Exempt Portfolio and Premier U.S. Government Money Portfolio determine the net asset value of their shares every fifteen minutes on each business day, beginning at 8:00 a.m. Eastern Time. The last net asset value determination on any business day for Premier Portfolio and Premier U.S. Government Money Portfolio will generally occur at 5:30 p.m. Eastern Time, and the last net asset value determination on any business day for Premier Tax-Exempt Portfolio will generally occur at 4:30 p.m. Eastern Time. Premier Portfolio, Premier Tax-Exempt Portfolio and Premier U.S. Government Money Portfolio are authorized not to open for trading on a day that is otherwise a business day if the Federal Reserve Bank of New York and the Bank of New York, the fund's custodian, are not open for business or the Securities Industry and Financial Markets Association (SIFMA) recommends that government securities dealers not open for trading and any such day will not be considered a business day. Premier Portfolio, Premier Tax-Exempt Portfolio and Premier U.S. Government Money Portfolio also may close early on a business day if SIFMA recommends that government securities dealers close early. If Premier Portfolio, Premier Tax-Exempt Portfolio or Premier U.S. Government Money Portfolio uses its discretion to close early on a business day, the last net asset value calculation will occur as of the time of such closing.

From time to time and in circumstances deemed appropriate by AIM in its sole discretion, each of Premier Portfolio, Premier Tax-Exempt Portfolio and Premier U.S. Government Money Portfolio may remain open for business, during customary business day hours, on a day that the NYSE is closed for business. In such event, on such day you will be permitted to purchase or redeem shares of such funds and net asset values will be calculated for such funds.

Timing of Orders

For funds other than Premier Portfolio, Premier Tax-Exempt Portfolio and Premier U.S. Government Money Portfolio, you can purchase or redeem shares on each business day prior to the close of the customary trading session or any earlier NYSE closing time that day. For funds other than Premier Portfolio, Premier Tax-Exempt Portfolio and Premier U.S. Government Money Portfolio, purchase orders that are received and accepted before the close of the customary trading session or any earlier NYSE closing time on a business day generally are processed that day and settled on the next business day.

For Premier Portfolio, Premier Tax-Exempt Portfolio and Premier U.S. Government Money Portfolio, you can purchase or redeem shares on each business day, prior to the last net asset value determination on such business day; however, if your order is received and accepted after the close of the customary trading session or any earlier NYSE closing time that day, your order generally will be processed on the next business day and settled on the second business day following the receipt and acceptance of your order.

For all funds, you can exchange shares on each business day, prior to the close of the customary trading session or any earlier NYSE closing time that day. Shareholders of Premier Portfolio, Premier Tax-Exempt Portfolio and Premier U.S. Government Money Portfolio therefore cannot exchange their shares after the close of the customary trading session or any earlier NYSE closing time on a particular day, even though these funds remain open after such closing time.

The funds price purchase, exchange and redemption orders at the net asset value calculated after the transfer agent receives an order in good order. Any applicable sales charges are applied at the time an order is processed. A fund may postpone the right of redemption only under unusual circumstances, as allowed by the Securities and Exchange Commission, such as when the NYSE restricts or suspends trading.

TAXES

In general, dividends and distributions you receive are taxable as ordinary income or long-term capital gains for federal income tax purposes, whether you reinvest them in additional shares or take them in cash. Distributions are generally taxable to you at different rates depending on the length of time the fund holds its assets and the type of income that the fund earns. Different tax rates apply to ordinary income, qualified dividend income, and long-term capital gain distributions. Every year, you will be sent information showing the amount of dividends and distributions you received from each fund during the prior year.

Any long-term or short-term capital gains realized from redemptions of fund shares will be subject to federal income tax. Exchanges of shares for shares of another fund are treated as a sale, and any gain realized on the transaction will generally be subject to federal income tax.

Investors in tax-exempt funds should read the information under the heading "Other Information—Special Tax Information Regarding the Fund" in the applicable fund's prospectus.

The foreign, state and local tax consequences of investing in fund shares may differ materially from the federal income tax consequences described above. In addition, the preceding discussion concerning the taxability of fund dividends and distributions and of redemptions and exchanges of fund shares is inapplicable to investors that are generally exempt from federal income tax, such as retirement plans that are qualified under Section 401, 403, 408, 408A and 457 of the Code, individual retirement accounts (IRAs) and Roth IRAs. You should consult your tax advisor before investing.

PAYMENTS TO FINANCIAL ADVISORS

The financial advisor or intermediary through which you purchase your shares may receive all or a portion of the sales charges and distribution fees discussed above. In addition to those payments, AIM Distributors or one or more of its corporate affiliates (collectively, AIM Affiliates) may make additional cash payments to financial advisors in connection with the promotion and sale of shares of the funds. These additional cash payments may include cash payments and other payments for certain marketing and support services. AIM Affiliates make these payments from their own resources, from AIM Distributors' retention of initial sales charges and from payments to AIM Distributors made by the funds under their 12b-1 plans. In this context, "financial advisors" include any broker, dealer, bank (including bank trust departments), registered investment advisor, financial planner, retirement plan administrator and any other financial intermediary having a selling, administration or similar agreement with AIM Affiliates.

AIM Affiliates make payments as incentives to certain financial advisors to promote and sell shares of the funds. The benefits AIM Affiliates receive when they make these payments include, among other things, placing the funds on the financial advisor's funds sales system, and access (in some cases on a preferential basis over other competitors) to individual members of the financial advisor's sales force or to the financial advisor's management. These payments are sometimes referred to as "shelf space" payments because the payments compensate the financial advisor for including the funds in its fund sales system (on its "sales shelf"). AIM Affiliates compensate financial advisors differently depending typically on the level and/or type of considerations provided by the financial advisor. The payments AIM Affiliates make may be calculated based on sales of shares of the funds (Sales-Based Payments), in which case the total amount of such payments shall not exceed 0.25% of the public offering price of all shares sold by the financial advisor during the particular period. Payments may also be calculated based on the average daily net assets of the applicable funds attributable to that particular financial advisor (Asset-Based Payments), in which case the total amount of such cash payments shall not exceed 0.25% per annum of those assets during a defined period. Sales-Based Payments primarily create incentives to make new sales of shares of the funds and Asset-Based Payments primarily create incentives to retain previously sold shares of the funds in investor accounts. AIM Affiliates may pay a financial advisor either or both Sales-Based Payments and Asset-Based Payments.

AIM Affiliates are motivated to make these payments as they promote the sale of fund shares and the retention of those investments by clients of financial advisors. To the extent financial advisors sell more shares of the funds or retain shares of the funds in their clients' accounts, AIM Affiliates benefit from the incremental management and other fees paid to AIM Affiliates by the funds with respect to those assets.

AIM Affiliates also may make payments to certain financial advisors for certain administrative services, including record keeping and sub-accounting of shareholder accounts pursuant to a sub-transfer agency, omnibus account service or sub-accounting agreement. All fees payable by AIM Affiliates under this category of services are charged back to the funds, subject to certain limitations approved by the Board.

You can find further details in the fund's Statement of Additional Information about these payments and the services provided by financial advisors. In certain cases these payments could be significant to the financial advisor. Your financial advisor may charge you additional fees or commissions other than those disclosed in this prospectus. You can ask your financial advisor about any payments it receives from AIM Affiliates or the funds, as well as about fees and/or commissions it charges.

EXCESSIVE SHORT-TERM TRADING ACTIVITY (MARKET TIMING) DISCLOSURES

While the funds provide their shareholders with daily liquidity, their investment programs are designed to serve long-term investors and are not designed to accommodate excessive short-term trading activity in violation of our policies described below. Excessive short-term trading activity in the funds' shares (i.e., a purchase of fund shares followed shortly thereafter by a redemption of such shares, or vice versa) may hurt the long-term performance of certain funds by requiring them to maintain an excessive amount of cash or to liquidate portfolio holdings at a disadvantageous time, thus interfering with the efficient management of such funds by causing them to incur increased brokerage and administrative costs. Where excessive short-term trading activity seeks to take advantage of arbitrage opportunities from stale prices for portfolio securities, the value of fund shares held by long-term investors may be diluted. The Board has adopted policies and procedures designed to discourage excessive or short-term trading of fund shares for all funds except the money market funds. However, there is the risk that these funds' policies and procedures will prove ineffective in whole or in part to detect or prevent excessive or short-term trading. These funds may alter their policies at any time without prior notice to shareholders if the advisor believes the change would be in the best interests of long-term shareholders.

The AIM Affiliates currently use the following tools designed to discourage excessive short-term trading in the retail funds:

- Trade activity monitoring.
- Trading guidelines.
- Redemption fees on trades in certain funds.
- The use of fair value pricing consistent with procedures approved by the Board.

Each of these tools is described in more detail below. Although these tools are designed to discourage excessive short-term trading, you should understand that none of these tools alone nor all of them taken together eliminate the possibility that excessive short-term trading activity in the funds

will occur. Moreover, each of these tools involves judgments that are inherently subjective. AIM Affiliates seek to make these judgments to the best of their abilities in a manner that they believe is consistent with long-term shareholder interests.

Some investments in the funds are made through accounts that are maintained by intermediaries (rather than the funds' transfer agent) and some investments are made indirectly through products that use the funds as underlying investments, such as employee benefit plans, funds of funds, qualified tuition plans, and variable insurance contracts (these products are generally referred to as conduit investment vehicles). If shares of the funds are held in an account maintained by an intermediary or in the name of a conduit investment vehicle (and not in the names of individual investors), the intermediary account or conduit investment vehicle may be considered an individual shareholder of the funds for purposes of assessing redemption fees. In these cases, the funds are likely to be limited in their ability to assess redemption fees on transactions initiated by individual investors, and the applicability of redemption fees will be determined based on the aggregate holdings and redemptions of the intermediary account or the conduit investment vehicle.

If shares of the funds are held in an account maintained by an intermediary or in the name of a conduit investment vehicle (and not in the names of individual investors), the intermediary or conduit investment vehicle may impose rules intended to limit short-term money movements in and out of the funds which differ from those described in this prospectus. In such cases, there may be redemption fees imposed by the intermediary or conduit investment vehicle on different terms (and subject to different exceptions) than those set forth above. Please consult your financial advisor or other intermediary for details.

Money Market Funds. The Board of AIM Money Market Fund, AIM Tax-Exempt Cash Fund, Premier Portfolio, Premier Tax-Exempt Portfolio and Premier U.S. Government Money Portfolio (the money market funds) have not adopted any policies and procedures that would limit frequent purchases and redemptions of such funds' shares. The Board considered the risks of not having a specific policy that limits frequent purchases and redemptions, and determined that those risks were minimal. Nonetheless, to the extent that a money market fund must maintain additional cash and/or securities with short-term durations in greater amounts than may otherwise be required or borrow to honor redemption requests, the money market fund's yield could be negatively impacted.

The Board does not believe that it is appropriate to adopt any such policies and procedures for the money market funds for the following reasons:

- The money market funds are offered to investors as cash management vehicles; investors must perceive an investment in such funds as an alternative to cash, and must be able to purchase and redeem shares regularly and frequently.
- One of the advantages of a money market fund as compared to other investment options is liquidity. Any policy that diminishes the liquidity of the money market funds will be detrimental to the continuing operations of such funds.
- The money market funds' portfolio securities are valued on the basis of amortized cost, and such funds seek to maintain a constant net asset value. As a result, there are no price arbitrage opportunities.
- Because the money market funds seek to maintain a constant net asset value, investors expect to receive upon redemption the amount they originally invested in such funds. Imposition of redemption fees would run contrary to investor expectations.

AIM Limited Maturity Treasury Fund. The Board of AIM Limited Maturity Treasury Fund has not adopted any policies and procedures that would limit frequent purchases and redemptions of such fund's shares. The Board considered the risks of not having a specific policy that limits frequent purchases and redemptions and determined that those risks were minimal. Nonetheless, to the extent that AIM Limited Maturity Treasury Fund must maintain additional cash and/or securities with short-term durations in greater amounts than may otherwise be required or borrow to honor redemption requests, AIM Limited Maturity Treasury Fund's yield could be negatively impacted.

The Board does not believe that it is appropriate to adopt any such policies and procedures for the fund for the following reasons:

- Many investors use AIM Limited Maturity Treasury Fund as a short-term investment alternative and should be able to purchase and redeem shares regularly and frequently.
- One of the advantages of AIM Limited Maturity Treasury Fund as compared to other investment options is liquidity. Any policy that diminishes the liquidity of AIM Limited Maturity Treasury Fund will be detrimental to the continuing operations of such fund.

Trade Activity Monitoring

AIM Affiliates monitor selected trades on a daily basis in an effort to detect excessive short-term trading activities. If, as a result of this monitoring, AIM Affiliates believe that a shareholder has engaged in excessive short-term trading, they will seek to act in a manner that they believe is consistent with the best interests of long-term investors, which may include taking steps such as (i) asking the shareholder to take action to stop such activities or (ii) refusing to process future purchases or exchanges related to such activities in the shareholder's accounts other than exchanges into a money market fund. AIM Affiliates will use reasonable efforts to apply the fund's policies uniformly given the practical limitations described above.

The ability of AIM Affiliates to monitor trades that are made through accounts that are maintained by intermediaries (rather than the funds' transfer agent) and through conduit investment vehicles may be severely limited or non-existent.

Trading Guidelines

If you exceed four exchanges out of a fund per calendar year (other than the money market funds and AIM Limited Maturity Treasury Fund), or a fund or an AIM Affiliate determines, in its sole discretion, that your short-term trading activity is excessive (regardless of whether or not you exceed such guidelines), it may, in its discretion, reject any additional purchase and exchange orders.

The ability of AIM Affiliates to monitor exchanges made through accounts that are maintained by intermediaries (rather than the funds' transfer agent) and through conduit investment vehicles may be severely limited or non-existent. If shares of the funds are held in the name of a conduit investment vehicle and not in the names of the individual investors who have invested in the funds through the conduit investment vehicle, the conduit investment vehicle may be considered an individual shareholder of the funds. To the extent that a conduit investment vehicle is considered an individual shareholder of the funds, the funds are likely to be limited in their ability to impose exchange limitations on individual transactions initiated by investors who have invested in the funds through the conduit investment vehicle.

Redemption Fees

You may be charged a 2% redemption fee if you redeem, including redeeming by exchange, shares of certain funds within 31 days of purchase. The ability of a fund to assess a redemption fee on redemptions effectuated through accounts that are maintained by intermediaries (rather than the funds' transfer agent) and through conduit investment vehicles may be severely limited or non-existent.

Fair Value Pricing

Securities owned by a fund are to be valued at current market value if market quotations are readily available. All other securities and assets of a fund for which market quotations are not readily available are to be valued at fair value determined in good faith using procedures approved by the Board. Fair value pricing may reduce the ability of frequent traders to take advantage of arbitrage opportunities resulting from potentially "stale" prices of portfolio holdings. However, it cannot eliminate the possibility of frequent trading.

Obtaining Additional Information

More information may be obtained free of charge upon request. The Statement of Additional Information (SAI), a current version of which is on file with the Securities and Exchange Commission (SEC), contains more details about the fund and is incorporated by reference into the prospectus (is legally a part of the prospectus). Annual and semiannual reports to shareholders contain additional information about the fund's investments. The fund's annual report also discusses the market conditions and investment strategies that significantly affected the fund's performance during its last fiscal year. The fund also files its complete schedule of portfolio holdings with the SEC for the 1st and 3rd quarters of each fiscal year on Form N-Q. The fund's most recent portfolio holdings, as filed on Form N-Q, are also available at <http://www.aiminvestments.com>.
